§ 27-2049 Neighborhood Design Development.

1. Purpose. The purpose of the Neighborhood Design Development is to:
 - A. Implement certain elements of the Susquehanna Township Comprehensive Plan, including "institut[ing] design standards that will help transform the Township into a quality-built environment that promotes a deep sense of place."
 - B. Implement certain elements of the R-2 District's purpose statement, by accommodating existing and future medium-density residential neighborhood developments served by public water and public sewer, by providing a range of options to encourage single family residential communities and neighborhoods of various styles, densities and designs.

- C. Encourage innovation and promote flexibility, economy and ingenuity in the design and layout of buildings, sites and streetscapes (i.e., Key Design Elements), so as to create attractive and more cohesive residential neighborhood with unique and identifiable senses of place.
- 2. Conditions of Eligibility.
 - A. Tract size minimum: 20 acres.
 - B. Utilities: public sewer and public water.
- 3. Submission Requirements.
 - A. At the time of preliminary and final plan submission, the Applicant shall submit the following documents demonstrating compliance and consistency with the Key Design Elements set forth in § 27-2049.4.
 - (1) Building and Site Layout Details. Including the proposed building and site design elements set forth in § 27-2049.4.A, as applicable.
 - (2) Streetscape Plan. Including the proposed streetscape design elements set forth in § 27-2049.4.B, as applicable.
 - B. The Design Review Committee (“DRC”) shall have the opportunity to review and comment on the proposed Building and Site Layout Details and Streetscape Plan submissions (prior to review by the Susquehanna Township Planning Commission) in order to provide informal comments to the Applicant.
- 4. Key Design Elements. The Applicant shall establish legally enforceable provisions controlling the applicable key design elements of the buildings, sites and streetscapes in accordance with following standards:

A. Building and Site Design Elements. The following building and site design elements shall be incorporated into all Neighborhood Design Developments:

(1) Building Site Design Elements.

- (a) Incorporate a variety of decorative architectural and accent building materials throughout the site, including brick, stone, cementitious siding, enhanced vinyl siding, board and batten siding or other decorative architectural material.
- (b) Create a primarily vertical expression to buildings through the use of windows, doors, pilasters, piers, columns, arches, terraces, porches, porticos, stoops, balconies, colonnades, arcades, or similar elements.
- (c) Vary the roof lines of buildings through the use of dormers, gables, turrets or similar elements.
- (d) Articulated façades and articulated roof lines, shall be provided along the building's front façade.
- (e) Windows, door openings, or other fenestration shall be primarily vertical in proportion.
- (f) All buildings shall have at least one primary entrance that is located on the building's front façade.
- (g) Low decorative fences, walls, hedges or other landscape treatments shall be installed and maintained in the front yards to provide attractive edges along the streetscape.
- (h) Front entry garages shall:

- i. Not extend closer toward the street right-of-way than the building's front façade; and
 - ii. Be set back at least 18 feet from the street right-of-way.

- (2) In addition to the required recreation requirements set forth in § 22-1007 of the Subdivision and Land Development Ordinance, the Neighborhood Design Development shall provide a central open space area as follows:
 - (a) The central open space area shall be conveniently accessible by sidewalk, walkway or trail from all buildings in the Neighborhood Design Development.

 - (b) The central open space shall have a minimum contiguous area of one acre or, if improved to provide a gathering area of at least 300 square feet, a minimum area of one-half an acre. Such gathering area improvements may include, but are not limited to, pavers, gazebos, pavilions, pergolas, arbors, trellises, seating, planters, plantings, lighting, sculptures or other decorative treatments to help identify such central open space area for the Neighborhood Design Development.

 - (c) Existing healthy native species trees and shrubs, and water features should be preserved within the central open space.

 - (d) Street trees shall be provided along the perimeter of central open space that border streets in accordance with the Subdivision and Land Development Ordinance.

 - (e) All portions of the central open space, except for those areas under sidewalks, walkways, trails, water,

furnishings, and recreational structures, shall be landscaped with trees, shrubs, ground cover, or grass.

- (f) Ownership and maintenance of reserved central open space shall be in accordance with § 27-2116.

B. Streetscape Design Elements. The following streetscape design elements shall be incorporated into all Neighborhood Design Developments:

- (1) The existing street and pedestrian systems shall be extended into a new Neighborhood Design Development.
- (2) Pedestrian systems such as sidewalks, walkways, trails and crosswalks shall be installed and maintained throughout the Neighborhood Design Development.
- (3) The streetscape shall be embellished with nearby buildings, sidewalks, walkways, trails, crosswalks, street trees and decorative street lights (poles and fixtures).
- (4) Buildings, lots, open space and neighborhoods shall be linked through pedestrian systems.
- (5) Sidewalks, walkways or trails shall be maintained along both sides of all streets.
- (6) All new sidewalks shall be at least 5'-0" in width.
- (7) Crosswalks located in driveway throats shall be at least 5'-0" in width.
- (8) Crosswalks shall be at least 6'-0" in width when they cross streets.
- (9) All trails shall be installed and maintained accordance with the Subdivision and Land Development Ordinance.

- (10) All decorative street lights (poles and fixtures) and street trees shall be installed and maintained accordance with the Subdivision and Land Development Ordinance.
 - (11) In lieu of installing decorative street lights within the rights-of-way along streets, decorative post lights (poles and fixtures) installed and maintained accordance with the Subdivision and Land Development Ordinance, shall be permitted within the front yards.
 - (12) All alleys shall be installed and maintained accordance with Attachment 20 - Design Guidelines of the Subdivision and Land Development Ordinance.
5. Dwelling, Bulk and Area Regulations. The following dwelling types complying with the applicable bulk and area regulations shall be permitted in a Neighborhood Design Development:
- A. Maximum residential density of a Neighborhood Design Development:
Five units per acre.
 - B. Single-family detached dwelling.
 - (1) Minimum lot area: 6,000 square feet.
 - (2) Minimum lot width: 45 feet.
 - (3) Minimum setbacks: Unless located along a curved street, which creates a similar effect, variations in principal building position and orientation should be considered. The use of pilasters, piers, columns, arches, terraces, porches, porticos, stoops, balconies, colonnades, arcades, or similar elements; varying the roof lines of buildings through the use of dormers, gables, turrets or similar elements; or articulated façades and articulated roof lines, which create a similar effect, shall be permitted in lieu of the following:
