

A Credit of up to 30%, is applied to all impervious area on the property if the parcel meets the following conditions:

1. Impervious area (IA), is less than or equal to 10% of the entire parcel area;
2. IA is not directly connected to a storm sewer, curb line, stream, channel, street, or other surface water conveyance, and;
3. IA is a minimum of 50 feet, measured horizontally, from the edge of a stream, channel, wetland, or other surface water conveyance.

Portions of the IA may be eligible for credit even if all IA does not meet conditions 2 and 3 listed above.

*Example:* A parcel may contain a detached house and shed. The total IA for the property equals 5.5%; however, the shed is 25 feet from a stream. The shed does not qualify for the credit. The house which meets all three conditions would receive full credit.
